DOCTORS NURSES PARAMEDICS DENTISTS
Come join us for 4 weeks or 4 years

"Bringing the Light of Christ into communities"

Make a difference

Medical Santo needs Doctors, Nurses, Paramedics and Dentist volunteers to ensure the ongoing provision of health services to the people of Northern Vanuatu.

We especially require a long term doctor and can provide some financial assistance for this position.

How you can help?

If you are in a position to consider volunteering please contact us now.

Do you know some medical professionals who may be interested in volunteering? We would appreciate you passing this information on and encouraging them to come to Medical Santo.

A life changing experience!

This is a wonderful and challenging opportunity to provide much needed health care in a developing country. You will make an ongoing contribution to many communities in one of the most beautiful parts of the world. During down time there are shipwrecks, diving, beautiful beaches, caves, tropical forests and lovely people to meet and get to know.

How we support you

Medical Santo has a team supporting volunteers in-country to assist with the application process and are available for consultation and advice from enquiry through to your return. Medical Santo is based in Luganville and operates a GP clinic where staff are available on the ground to supervise, support and guide volunteers during their stay. We also provide medical outreaches to numerous rural communities and outer islands.

The volunteer program covers:

- Pre-departure orientation,
- Corporate Travel, Personal Injury and Accident Insurance,
- Volunteer accommodation,
- Airport transfers in Vanuatu,
- In-country orientation and cultural awareness training,
- Volunteer uniforms for the duration of your stay,

What you provide

You will be contributing your skills, knowledge and time to support the ongoing medical services program. Unlike government funded international aid programs, Medical Santo is not in a position to fully cover all expenses associated with volunteering.

Volunteers will need to pay for the following:

- ✓ $300 AU registration fee
- ✓ Return airfares
- ✓ General living expenses during their placement such as food, mobile phone costs and recreational activities
- ✓ Costs associated with immunisation

Family is welcome and appropriate accommodation can be provided. Contact us to discuss and confirm your details.
